

## About Founder

### Manish Basnet says,

"It's been more than 10 years since I started working in the IT field. Through the years, I got the chance to work with top companies in Nepal like Hunchaa Digital as project manager, Lunar IT Solution as the lead dotnet developer and Koshi province's project lead for Code For Change Koshi. Besides that, I run startups like Tapshare and Digital Koshi. I believe that learning is a lifelong pursuit, and I am committed to nurturing my curiosity and pursuing new knowledge wherever it may lead me."

# What is Digital Pathshala?

Digital Pathshala is an initiative that provides technical knowledge and guidance to people of all educational level or experience irrespective of their financial constraints.

Many educational institutions in Nepal charge exorbitant fees, making quality education inaccessible for many. We recognized this gap and started Digital Pathshala. We're not just another eLearning platform — we are a solution to the problem of overpriced institutions that are out of reach for many Nepalese students.

## Why choose us?

In Digital Pathshala, we provide high-quality paid educational content as well as free content. With a DP membership, you will qualify for discounts on future launches of courses. Not only that, with our refer-and-earn policy, you'll get a chance to earn a sum of money by referring DP courses to other students. Here at DP, we value each of our students, hence, we also hold giveaways as well as a Daily QnA session.

## Our Vision & Mission:

### Vision

To become an educational institution providing affordable learning resources and contribute to the growth of technology all over Nepal.

### Mission

- Bringing quality education to every corner of Nepal — and beyond.
- Helping students land internships and job placements at successful IT companies.
- Provide proper guidance and support to the students.

# 12 High-Quality IT Courses at just Rs. 2,499!

At just **Rs.2,499**, gain lifetime access to 12 of our most prestigious and well received IT courses.

Designed for all experience levels, our courses delve deep covering basic fundamentals to advanced topics, ensuring you learn new concepts or refine previous knowledge.

To make it easier for absolute beginners in the programming world, we offer a “Web Development Boot-camp” course tailored just for them, which we highly recommend completing first, as other courses will build upon the concepts taught here.

## Courses

### 1. MERN Stack

- Duration: 99 Days

### 2. React Native

- Duration: 45 Days

### 3. Node Js

- Duration: 30 Days

### 4. Django

- Duration: 30 Days

### 5. Flutter

- Duration: 30 Days

### 6. Next Js

- Duration: 30 Days

### 7. React Js

- Duration: 30 Days

### 8. Laravel

- Duration: 30 Days

### 9. Asp .Net Core

- Duration: 30 Days

### 10. Python with Django Rest Framework

- Duration: 30 Days

### 11. Digital Marketing

-Duration 30 days

### 12. Web Development Bootcamp (Special Bonus)

-Duration 75 days

## Web Development Bootcamp

Duration: 75Days

Are you new to the world of web development? This course is just for you. Diving right into the fundamentals while guiding you through basic concepts, this is a special bonus course that will take you from an absolute beginner to a level of well informed newbie programmer. All the other courses in this package build upon the knowledge you'll gain here.

**Course Details(Syllabus):** <https://bit.ly/41J>

## MERN Stack

Duration: 99Days

Learn MERN Stack, one of the most popular tech stack to build web apps. Take a comprehensive dive into the world of MERN as you learn MongoDB as well as MySQL for database, Node and Express to manage the backend and React with tailwind to build interactive and expressive Frontend.

**Course Details(Syllabus):** <https://bit.ly/3Rf>

## React JS

Duration: 30Days

Learn REACT, a widely used and in demand Java Script library to build fast and efficient frontend. As a bonus, you'll also work with Tailwind to write quick style to make attractive frontend app.

**Course Details(Syllabus):** <https://bit.ly/3lr44tL>

## React Native

Duration: 45Days

Dive into the world of mobile app development with React Native. Built on top of REACT.js, React Native uses React like syntax to build fast and efficient mobile apps.

**Course Details(Syllabus):** <https://bit.ly/4bcRsgE>

## NEXT.js

Duration: 45Days

Built on top of REACT, get a comprehensive dive at NEXT.js which uniquely handles front and back end with a single code base and makes full-stacks development much efficient and seamless.

**Course Details(Syllabus):** <https://bit.ly/3x16PHK>

## Node.js

Duration: 30Days

Dive deep into the world of back-end with Node.js . This course starts with the basics of back-end and equips you with several back-end concepts ensuring that you have all tools and knowledge to build a effective and well-functioning back-end.

**Course Details(Syllabus):** <https://bit.ly/4ctuKmg>

## Django

Duration: 30Days

Learn back-end development with Django. Building more with less code and minimal redundancy, learn efficient coding practices with this course. Basic Python knowledge is prerequisite to this course.

**Course Details(Syllabus):** <https://bit.ly/4epbYOU>

## Python with Django Rest Framework

Duration: 30Days

Enter the world of Python and back-end with this course. This course builds up from Python basics to Advanced Django concepts.

**Course Details(Syllabus):** <https://bit.ly/4haNZDt>

## Flutter

Duration: 30Days

Learn Flutter, one of the most in demand Framework to build mobile apps. This course takes you from learning basic Dart to making seamless mobile apps with Flutter.

**Course Details(Syllabus):** <https://bit.ly/48ZzvBT>

## Laravel

Duration: 30Days

Dive deep into Laravel, a framework of php, a language that covers 75% of the existing web. Write Server Side Scripts to perform Server side rendering while building fast and cost-efficient back-end.

**Course Details(Syllabus):** <https://bit.ly/3Py5thl>

## Certificate Policy:

Simply share your daily learning on LinkedIn, tagging Digital Pathshala and using the hashtag #learningwithdigitalpathshala. After completing the course, send all your LinkedIn post screenshots, along with your photo, to our email: [hello@digitalpathshalanepal.com](mailto:hello@digitalpathshalanepal.com), you will receive the certificate within 7 days.

## Asp .Net Core

Duration: 30Days

Dive into web development with Asp.Net core. Built on top of powerful .Net core, Asp.Net core allows you to write high performance, scale able web apps and APIs. In this course, you'll learn the basics of C# and move towards Asp.Net, mastering it's core concepts.

**Course Details(Syllabus):** <https://bit.ly/3XJ709d>

## Digital marketing

Duration: 30Days

Learn to present your product to the world. Dive deep into topics like SEO, Google Analytics with tools like wordpress ,canva and much more.

**Course Details(Syllabus):** <https://class.digitalpathshalanepal.com/syllabus/dmc.pdf>

## Web Development Boot-camp

- HTML, CSS and JavaScript(Front-end)
- Node.js and Express.js(Back-end)
- RESTful APIs & Databases (SQL, NoSQL)
- Authentication & Security (JWT, Hashing, HTTPS)
- Full-Stack Project Development (CMS)
- Deployment & Hosting
- WebSockets & Real-time Features

## MERN Stack

- MERN Stack (MongoDB + MySQL , Express, React, Node.js)
- CRUD Operations & API Development
- Authentication & Security (JWT, Cookies, Sessions)
- WebSockets & Real-time Features
- Redux & State Management
- Payment Integration with Khalti
- Cloud Deployment (Vercel, Digital Ocean, Docker, Kubernetes)

## REACT.js

- State Management (Context API, Redux Toolkit)
- Routing & API Integration (React Router, CRUD Operations)
- Performance Optimization (HOCs, useMemo, useCallback)
- Tailwind CSS for Styling
- Testing with Jest & Enzyme

# Skills you'll acquire after the completion of this course

## REACT Native

- State Management (Redux Toolkit, AsyncStorage, Thunks)
- API Integration (Axios, Auth, CRUD Operations)
- E-commerce Features (Cart, Checkout, Payment Integration)
- Admin Dashboard in React.js (Orders, Product Management)

## NEXT.js

- Authentication with NextAuth.js & Protected Routes
- State Management with Redux Toolkit
- CRUD Operations, Form Validation, Search & Sort
- Performance Optimization (Code Splitting, Image Optimization, SEO)
- Testing (Unit, E2E with Cypress) & Deployment to Vercel

## Node.js

- Databases & ORM (MySQL, Sequelize)
- Authentication (JWT, Sessions, Cookies)
- MVC & Forum System Development
- File Uploads (Multer, Cloudinary, S3)
- WebSockets & Real-time Features
- Advanced Topics (Multitenancy, OTP, Password Recovery)

## Django

- Django Basics: Pip, Virtual Environments, Project Setup
- Views, Templates, Folder Structure
- Blog System Development (Auth, Models, Forms, ORM)
- CRUD Operations, Middleware, Advanced Querysets
- Pagination, Searching, User Profiles
- Testing & Deployment

## Python with Django Rest framework

- Python and Django basics.
- Django Rest Framework.
- Serialization, Views, Routers and APIs
- Authentication, Permissions, File Uploads
- Throttling, Middleware, Testing
- Project: Setup, Build and Deployment

## Flutter

- Dart Basics
- Data Structures in Dart
- Flutter Widgets & Dynamic Widgets.
- Understand Navigation and Routing.
- Implement State Management with GenX.
- Integrate Firebase for authentication.
- Implement CRUD with Fire Store.
- Use Cloud storage with Firebase.

**Here's a demo  
of projects  
you'll be  
capable of  
making  
during the  
course:**

**[/takemetoprojectdemo/](#)**

## Laravel

- What is php and MVC architecture?
- Building Dynamic web pages.
- Understand Ajax, CRUD operations, and form validation.
- Implement user authentication and social media authentication using Google.
- Integrate Payment gateway.
- Build a complete E-commerce website.

## Asp .Net Core

- Learn C# and MVC architecture.
- Routing and Validation.
- Understand File upload mechanism and Unobtrusive Ajax along with folder structure.
- Implement Authorization and Authentication.
- Create Projects: News Blog and Hybrid App for IOS, Android, MAC and Windows.

## Digital marketing

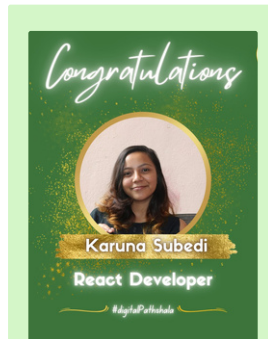

- Understand SEO(Search Engine Optimization).
- Create content marketing and digital marketing strategies.
- Graphics Design with Canva.
- Understand analyzing and measuring campaigns.

# Success Stories

**Dream it. Believe it. Achieve it.**

Let these inspiring journeys from Digital Pathshala motivate you to chase your goals. These are some of the many students have secured jobs and internships across Nepal with hard work, determination, and continuous learning.

**Your story could be next! Keep learning, keep growing, and never stop believing in yourself.**

# Testimonials

"The perfect IT training institute for creative and practical learning with experienced instructors. Best place to start your IT career."

(Abesh Mandal comments on Facebook Group)

"Excellent developer trainer! Clear explanations, engaging teaching style, and valuable hands-on exercises. I highly recommend for anyone looking to level up their coding skills."

(Nabin Khanal comments on Facebook Group)

I had an incredible experience at Digital Pathshala! The instructors are knowledgeable and supportive, guiding us every step of the way. The curriculum is up-to-date, and the internship program provided valuable real-world experience. Plus, their placement support is top-notch! Whenever I faced challenges, they were always there to help. Highly recommend for anyone looking to excel in IT!

(Sulav Acharya comments on Facebook Group)
